

## About Us

---

Since the beginning we have always followed the philosophy of the 3 "joys"

"The joy of learning"

"The joy of knowledge"

"The joy of teaching" .... in the very same order.

### How it all started:

We started out as a bunch of graduates from a couple of engineering colleges looking to work in the field of education owing it to either our backgrounds or interests. We were aware of the cut-throat competition in this field but we knew we had something different to offer to the students because we were one of them a few months back. We were a team of 5 boys working in the companies we were placed from the DCE campus and at the same time working on our weekends towards our hobby that was teaching. Hence we saw ourselves growing beyond our imagination and reaching out effectively to the various colleges/universities of the country.

### What we do:

As the name "GO FOR TECH" suggests we are a **technology driven** company which provides educational services to a **vast client base** that includes students and professionals. We offer comprehensive engineering services in the areas of IT Security and Ethical Hacking, Embedded Robotics, Automotive Mechanics & IC Engines. We extend our educational services by conducting technical workshops and industrial training in various engineering colleges and schools to inculcate the spirit of technological advancement in the engineering youth of India.

Due to the lack of quality education as well as commercialization of education sector in India, we have designed our training courses to **very high standards** & keeping in mind the requirement of the industry. Our cost effective, flexible and value based delivery of courses makes our services prominent in academia and industry. Our association with various Student Collegiate Clubs, Non Profit Organizations and our Educational Partners provide us an access to reach students in every part of the country.

## ***Our vision***

---

**Go 4 Tech** aims to give India's most reputed workshop in the field of Android Technology. It aims to train participants and produce skilled animator and equips them with all the tools, techniques and methods. Go 4 Tech had trained many students across India. The live interactive sessions, practical lab sessions and real life examples will take participants inside the minds of technocrats .

## ***Our Services***

---

- Educational Workshops
- Educational Trainings
- Engineering Projects
- Schools Projects
- eLearning
- web Solutions
- Website Development
- Corporate Training
- T-Shirts/Caps Printing

## ***Educational Workshops Modules***

---

- Robotics
- Ethical Hacking
- Animation
- Android
- Automobile and Engine Design
- Photography
- Aero-Modeling
- Glider Making
- Photoshop
- Java & DOT NET
- Glider-Making
- iPhone
- Eye-Robotics
- Mobile Robotics
- Solidworks
- Ansys
- Piping Design
- Brigidesign
- Power Plant.....And many more

## Clients

---

- Tezpur University, Assam
- KNIT, Sultanpur
- INNOVA, DTU
- Graphics Era University, Dehradun
- Renaissance, DTU
- Gulzar Group of Institutes, Ludhiana
- Indira Gandhi Institute of Technology
- IIT-Bombay
- Sri Ganganagar Engineering College, Rajasthan
- Goa Engineering College, Goa
- Vidyapeeth Engineering College, Delhi
- IIT-BHU
- PEC University of technology, Chandigarh
- IIT-Delhi
- Agnel Institute OF Technology, Goa
- Punjab Engineering College , Punjab
- NIT, Srinagar
- SSCPOM, Maharashtra
- Bharti Vidyapeeth College of Engineering, Navi Mumbai
- ITM, Delhi
- IIT-Jodhpur , Rajasthan
- Institute of Technical Education & Research (ITER), Bhubaneswar
- Kongu Engineering College , Coimbatore
- RITS, Bhopal
- C.S.A University , Kanpur
- IGIT, Delhi
- Tezpur University , Assam
- Dibrugarh University, Assam
- GB Pant Engineering College, Delhi
- NIT, Patna
- Manipal Institute of Technology , Manipal
- BITS, Goa
- MSIT, Delhi
- Shri Balwant Institute Of Technology, Sonapat
- Girijananda Institute of Management and Technology, guwahati
- North Eastern Regional Institute of Science and Technology (NERIST), Itanagar

And the list is counting.....

Robotics | Ethical Hacking | Projects | Educational Trainings | Animation | Automobile
